

RIVER MONITOR TRAINING

Learn how to become a river monitor or refresh your river monitoring skills

DATE

Saturday, May 18

TIME

10:00 a.m. - 1:00 p.m.

LOCATION

West Fork Carson River downstream of the 4th crossing bridge in Hope Valley

WHO: Anyone interested in becoming a river monitor should attend, and current river monitors are encouraged to join as well.

WHAT: Training will cover river monitoring protocols to operate advanced scientific equipment and will teach you about important water quality parameters.

WHY: AWG is recruiting interested volunteers to learn the methods to participate in the river monitoring program.

Please **RSVP** to Headwaters Coordinator Rachel Kieffer, avg.rachel@gmail.com, to stay up to date on event location and any other details.

Please allow one hour within the 10 a.m. - 1 p.m. time slot to be trained. Attendance is not required for the entire three-hour period.

Contact Headwaters Coordinator
Rachel Kieffer for more information.
