Upcoming Board of Supervisors Presentation on the Hope Valley Restoration and Aquatic Habitat Enhancement Project

Alpine Watershed Group will be presenting at the Alpine County Board of Supervisors meeting on **July 17th at 9:45 a.m.** to share about our upcoming restoration project at Hope Valley's

“Fourth Crossing” Bridge. Please see the [flyer](#) describing the details of the project. Come to the public meeting if you have any questions, comments, or concerns about this project.

Physical Habitat Assessment Training

Every year, Alpine Watershed Group conducts a stream walk survey in addition to the usual water quality parameters for the ambient monitoring program. Before the stream walk in August, AWG will host a Physical Habitat Assessment training, led by Erick Burres of the California State Water Board. This training will help volunteers identify key signs of a healthy habitat. We encourage all current ambient monitors to attend as well as any potential monitors or generally interested individuals.

The training will be on **Saturday, July 28th from 9:00 a.m.- 4:40 p.m.** Meet at Markleeville Library. RSVP by emailing Marina at awg.snap.rm@gmail.com.
