

August 28, 2018

Alpine Watershed Group works to preserve and enhance the natural system functions in Alpine County's watersheds for future generations through collaboration, education, and proactively implementing stewardship projects.

Sign Up for Creek Day!

We are a couple of weeks away from one of our biggest restoration events of the year. The 19th Annual Markleeville Creek Day will be a fun day of fulfilling work, community connections, and celebration with raffle prizes, kids' crafts, and food!

Sign up below by **August 31st** for your desired restoration project. Click [here](#) for more information. If you have any questions, please email us at alpinewatershed@gmail.com. We hope to see you there!

Volunteers planted 375 willow stakes last year

In case you can't make it to Creek Day, but still want to participate, consider donating the following items:

- 1 gallon of redwood stain
- 1 packet of medium grit sand paper
- Large, heavy duty garbage bags

If you are volunteering and happen to have these items already, please consider bringing them with you to Creek Day! Email awg.snap.rm@gmail.com with confirmation. Thank you!

Alpine Biomass Collaborative to Host USGS Presentation on Watersheds

On Tuesday, September 4th from 6:00 p.m. to 7:30 p.m., the Alpine Biomass Collaborative (ABC) monthly meeting will focus on a timely watershed topic! Dr. Wesley Kitlasten of the United States Geological Survey (USGS) will present on future water availability and use in the Carson and Truckee River Systems as well as Sierra wide meadow vulnerability assessments. For more information click [here](#).

Watershed Group Meeting on September 11th

Please join us for the next Alpine Watershed Group meeting on Tuesday, September 11th, 5:30-7:00 p.m. at the Woodfords Indian Education Center. Sadly, we will be saying goodbye to this year's AmeriCorps members, Julia Keane and Marina Vance. We'll hear about the highlights of their service year, including the accomplishments from Markleeville Creek Day, and we'll discuss priorities and upcoming projects in Alpine County watersheds. Given some potential grant funding opportunities on the horizon, we will also have a discussion on the Markleeville Creek Restoration Project in Heritage Park.
